1. SMCMUA will determine the method by which Contractor will obtain temporary construction water.
2. If required, the Developer shall cut the service line near the curb stop and install a backflow preventer, shut-off valve and lockable frost proof yard hydrant.
3. All backflow prevention must comply with the latest editions of the National Standard Plumbing Code; the BOCA Plumbing Code; the Plumbing Subcode of the NJ State Uniform Construction Code; AWWA M14, Backflow Prevention and Cross-Connection Control Recommended Practices; and the NJAC 7:10 Safe Drinking Water Act as applicable.
4. All temporary water connections shall be kept clear and assessable at all times.
5. The payment for, and use of, temporary water shall in all respects be subject to the SMCMUA's Rules and Regulations now in effect or as may be adopted in the future.
6. The applicant agrees to hold the SMCMUA harmless and accept full liability for any damages, injuries, or illnesses caused directly or indirectly by the use of temporary water or by failure to comply with applicable code requirements.
7. Non-compliance with the rules and regulations set forth shall result in discontinuance of service and loss of applicable fees.

Applicant shall pay required fees as per Schedule 11 and/or Schedule 14 of the SMCMUA's Rules and Regulations. Payment is required after inspection and application approval.
