**THE SOUTHEAST MORRIS COUNTY MUNICIPAL UTILITIES AUTHORITY
PWS NJ #1424001**

ANNUAL WATER QUALITY REPORT

(Cedar Knolls, NJ) — The Southeast Morris County Municipal Utilities Authority (SMCMUA) announces that the 2019 Annual Water Quality Report is now available. The report can be found on the SMCMUA's website at <http://smcmua.org/2019WaterQualityReport.pdf>

SMCMUA reports full compliance for calendar year 2019 with all USEPA and NJDEP primary regulations, where all standards were achieved.

The Annual Water Quality Report is also known as the Consumer Confidence Report and contains information as required by the United States Environmental Protection (USEPA) and the New Jersey Department of Environmental Protection (NJDEP). The report provides information on the sources of water, treatment and monitoring results for both primary, enforceable, and secondary, aesthetic, standards, for samples collected at the source, after treatment and throughout the distribution system. The report also contains special notices for persons who may be more vulnerable to contaminants in drinking water than the general population, such as persons who are immunocompromised, some elderly, infants and also for persons who are on sodium restricted diets; where, in these cases, USEPA advises that these persons seek advice about drinking water from their health care provider.

The report is published electronically to better protect our natural resources but is available in hard copy by request. SMCMUA account holders and Smart911™ registrants will receive an additional notice of the release of the Annual Water Quality Report by email.

Please contact Customer Service with any questions or to request a hard copy.
